KEYNOTE SPEAKER

Dimitris N. Tatakis, DDS, PhD

*"Gingival Recession and Root Coverage:
An Evidence-based Approach"*

Diplomate, American Board of Periodontology
Professor and Director of Postdoctoral Program
Division of Periodontology
Assistant Dean for Global Initiatives
College of Dentistry
The Ohio State University

Dr. Tatakis' research interests include clinical and translational research with an emphasis on periodontal regenerative surgical outcomes, periodontal wound healing, and periodontal-systemic interactions. Focus on the host-related aspects of periodontal soft tissue therapy outcomes, on identifying host factors that determine regenerative outcomes, and on the interactions between periodontal therapy and systemic biomarkers. He has authored or co-authored numerous research publications related to his field of interest.

Monday, June 12, 2017
